Life beyond class: Take a glance into NSHM's social scene

The Mentor Speak

On behalf of NSHM Knowledge Campus, I'd like to extend a warm welcome to all faculty members, students, and distinguished guests. It is my pleasure to provide an overview of NSHM's faculty accomplishments and student initiatives. This year, we are proud to highlight the success of our faculty in the form of patents and research articles in various fields. Additionally, our final-year students have secured fantastic placements with incredibly high packages.

As an educator, I strongly believe that students should receive a holistic education to become multidimensional individuals rather than just acquiring information. Therefore, we aim to foster a setting that encourages academic and extracurricular pursuits to nurture the mental, spiritual, social, emotional, and physical growth of our students.

Our primary objective is to evaluate the academic, social, emotional, physical, and intellectual growth of each student. At NSHM Knowledge Campus, we take pride in our achievements and accolades over the past several years in academics, extra-curricular activities, and infrastructure development. We are committed to providing our students with a learning environment full of knowledge and opportunities for their personal and professional growth.

“I'm proud to acknowledge the contribution of our staff and faculty in providing high-quality education to our students. Our faculty works tirelessly to provide our students with valuable educational experiences through various activities, and we invite renowned speakers to introduce them to new perspectives. We believe that determination, hard work, patience, and tenacity can overcome all obstacles in life. My best wishes to all students at NSHM Knowledge Campus.”

- Dr. Alok Satsangi

Director

NSHM Business School and NSHM Institute of Engineering & Technology
